EXPERIENCE

IPEC SOLUTIONS | INTERSHIP

Oct 2022 – Nov 2022 | 1st Floor, SK Complex, No.234, Uttarahalli Main Rd, 5th Stage, Rajarajeshwari Nagar, Bengaluru, Karnataka 560098

- Developed an interactive chatbot application to handle COVID-19 related queries, improving user access to timely healthcare information.
- Utilized Python programming along with natural language processing techniques to process and understand user input text effectively.

COLT ASSIST PRIVATE | INTERSHIP

Oct 2023 – Nov 2023 | 6-78/1, S. R. Subbaraju layout, near B.K. circle, 8th Phase, J. P. Nagar, Bengaluru, Karnataka 560076

- Developed the frontend of a scientific calculator web application using JavaScript, ensuring a responsive and user-friendly interface.
- Implemented complex mathematical functions and operations to enable users to perform accurate scientific calculations.

ROOMAN TECHNOLOGIES | INTERSHIP

Sep 2024 – May 2025 | VHQ2+W9F, Kanakapura Main Rd, near METRO Station, Doddakallasandra, Bikasipura, Bengaluru, Karnataka 560062

- Completed an intensive internship specializing in Artificial Intelligence and Machine Learning methodologies.
- Built and optimized machine learning models using Python programming, leveraging key libraries such as scikit-learn, NumPy, Pandas, and Matplotlib for data processing and visualization.

PROJECTS

CHATBOT FOR COVID-19 QUERIES | INTERNSHIP PROJECT

Oct 2022 – Nov 2022

- Developed a Python-based chatbot to efficiently handle COVID-19 related queries by implementing natural language processing techniques.
- Designed conversation flows and integrated relevant health information, ensuring accurate and timely responses to user questions.

SCIENTIFIC CALCULATOR | INTERNSHIP PROJECT

Oct 2023 – Nov 2023

- Developed a scientific calculator web app in JavaScript supporting complex functions like trigonometry and logarithms. a responsive, user-friendly interface with real-time calculation display.

DEEPFAKE DETECTION USING DEEP LEARNING |

INTERNSHIP PROJECT

Sep 2024 – May 2025

- Developed a web-based AI tool to detect deepfake videos using InceptionV3 and LSTM, providing frame-level analysis and confidence scores.
- Applied deep learning models to accurately distinguish between real and manipulated video content.

EDUCATION

SCHOOLING(10)

SFS HIGH SCHOOL

Apr 2009 – Apr 2019 | Bengaluru

Cum. GPA: 7.0 / 10.0

SCHOOLING(12)

ST. FRANCIS COMPOSITE PU

COLLEGE

Jul 2019 – Jul 2021 | Bengaluru

Cum. GPA: 6.5 / 10.0

BE- ENGINEER

CITY ENGINEERING COLLEGE

Aug 2021 – May 2025 | Bengaluru

Cum. GPA: 6.8 / 10.0

SKILLS

PROGRAMMING

Python

SQL

JavaScript

MySQL

HTML5

CSS3

TECHNICAL SKILLS

Artificial Intelligence

Machine Learning

DBMS

CERTIFICATIONS

Data Analytics Capstone - Google

Java Script JS - Mindluster

DBMS - Mindluster

AI and ML - NCrf/NSQF(Skill India)

DOMAINS

AI and ML

Web Development

Data Analyst
